**SEE REVERSE SIDE FOR USAGE PROVISIONS**

Usage is subject to the following provisions:

1. Hydrant meter shall be attached to 2 ½" outlet of hydrant.
2. Hydrant shall be fully turned on and discharge flow from attached meter shall be controlled by ¾" gate valve.
3. If not using a controlled ¾" gate valve on hydrant meter, all trucks are to fill up at authorized locations listed at the bottom of the page.
4. Hydrant wrenches only shall be used to turn on and off, not a pipe wrench.
5. Hydrant unit shall remain attached only when in use. While the hydrant meter is attached a representative of the company must be present at all times. Hydrant shall be returned to operating condition at the end of the day for fire use.
6. After completion, unit shall be returned to the Field Operations Office at 71 Coal Landing Road, Stafford, VA 22554.
7. Monthly meter reading should be called in to Stafford County Utilities at (540) 658-8616 between the 20<sup>th</sup> and 25<sup>th</sup> of each month. If reading is not called in, there will be a 10,000 gallon minimum usage charge.
